PROJECTS & ACHIEVMENTS

MRI Tumor Detector

2021 – Present

We created a website using HTML CSS and JS that predicts the tumor for MRI scan images using machine learning and detects the tumors.

2nd RUNNER UP in Sathyabama University Smart Digital Hackathon

We created a Ecommerce website that will help the farmers to sell their goods on daily basis and it will help the consumers to get really fresh goods directly from the farmers and there will be no middle man involving in the process.

Finalist in SVCE hackathon

We created a website that helps the people to get an idea about the basic information about the diseases they have and help the blood donors to connect with the hospital and help the out patient to book slots in the hospital sittings.

Futura'22

A website to advertise the Symposium Events conducted by Artificial Intelligence and Data Science Department of Sri Sairam Institute of Technology

Cocoenz'22

A website to advertise the Symposium Events conducted by Computer and Communication Engineering and Data Science Department of Sri Sairam Institute of Technology
